MEMBERSHIP

The membership year is from the 1st October to 30th September.

Subscriptions will be invoiced at the beginning of September and become due on the 30th September each year. Members will become unfinancial as of the 1 October however a grace period of 14 days will be applied should a member not have paid their fees by this date.

Members who wish to change their status, ie, transfer to another category of membership should advise the General Manager in writing before the end of the current membership year.

CLUB HOUSE GUESTS

Members are responsible for any guest they introduce to the Club.

Members and visitors are requested to dress neatly at all times on the course or in the clubhouse. Shorts may be worn in conjunction with sport socks. Thongs are not acceptable, nor are T-shirts without collars or stubbie shorts. Shoes must be worn at all times inside and outside of the club.

The enjoyment of golf depends a great deal on the co-operation, consideration and courtesy extended by fellow competitors.

What is true of the game also applies to Club Membership. The spirit and image of a golf club is projected by the way fellow members show respect, courtesy and consideration for one another.

This courtesy and consideration should extend to the choice of dress generally in the standard of conduct on the course, and in the clubhouse.

The standards of a golf club may be judged by the etiquette of its members.

It is always better to give a point rather than take one.

HANDICAPPING

Establishment & Maintenance of Handicaps

The Australian Handicapping System requires 3 cards to obtain an official handicap.

These cards must be signed by a marker who holds a current Australian handicap but need not be from competition rounds, and does not have to be played at Carbrook Golf Club.

New members who are unable to find a qualified marker should approach the golf shop staff who may partner them with a member holding a current handicap. Rounds so arranged may be played in any Club competition except Honour Board events, ambrose events or monthly medals.

In the case of Monthly Medal events the golf shop staff may, at their discretion include such a game in the afternoon field only, provided there are sufficient vacancies.

ETIQUETTE OF THE GAME OF GOLF

Members are asked to pay particular attention to the following paragraphs – they will add to the pleasure on the course of all concerned.

1. Check the Local Rules before you hit off.
2. Keep up with the group in front. If you fall one hole behind you **must** call the following players through without request. Should players in front fail to call you through in these circumstances you should request to play through.
3. Do not walk ahead of someone still to play but aim to position yourself and select your clubs before it is your turn to play. On the putting green repair plug marks and study the line of your putt before it is your turn to play.
4. Consider pulling the bag of the last player on the tee forward immediately after the player has played their shot. This can help save time.
5. Watch other players' shots and if there appears to be a possibility of a ball being hard to find, mark its position carefully and discuss your view of the probable position as you walk forward with the player.
6. Play a provisional ball when there is a chance that the ball may be lost.
7. Call following players through if they are waiting and your ball is not immediately found. A player may search for his ball for 5 minutes but waiting players must be called on to play through if it is your turn to play and your ball has not been found. Players who call through another match should, if convenient, play their next shot and walk forward with the group called through. They should then not resume play until the players called through are out of range.

8. Finish putting out if you can without standing on another's line.
9. Pass the flagstick to another player before it is your turn to putt. There is no need for all players to stay near the hole while the last player finished putting. The player having the honour on the next tee should move towards the next tee and be ready to play.
10. Tell your marker clearly how many shots you took as you complete each hole. Never mark your card when it is your turn to play and do not hold up play by marking your card on the green.
11. Enter and leave bunkers at their low part and walk directly to your ball via the flat portion of the bunker. Smooth or rake all marks in a bunker and leave the rake in the centre parallel with the line of play.
12. **All** players **must** carry a sand bucket or dispenser and place sand in a divot mark.
13. Repair ball marks on the putting green, particularly your own, and repair spike damage after putting out.
14. Move briskly between shots and stay aware of your responsibilities to other players in the field.
15. If you are falling behind you can progress much more quickly if the first player who finishes the hole hits off first at the next.
16. All mobile phones must be switched to silent and used only when absolutely necessary – the Match Committee strongly discourages the use of mobile phones whilst on the golf course.

PACE OF PLAY POLICY

Due to extensive member feedback and in accordance with the Rules of Golf (Rule 6.7) this Pace of Play Policy has been established on the following principles:

- All players (not just the lowest marker) are responsible for the speed of play of their group
- All players are required to be on the tee 5 minutes prior to your tee time
- 4 hours and 20 minutes is the required **maximum** time for a group to complete 18 holes
- Over 4 hours and 30 minutes is an unacceptable period of time to complete 18 holes of golf

Therefore, penalties may be applied to the first group in a competition field that takes more than 4 hours and 30 minutes to complete their round of golf. The Match Committee will consider all contributing factors and may apply these penalties as follows:

1. On the first occasion each player may be sent a letter advising them of their first official warning for slow play.
2. On the second occasion in a four month period that player/s may be restricted to being able to only book in one of the last two tee times of the morning or afternoon fields for the following two week's of competitions.
3. On the third occasion in a four month period that player/s may be suspended from playing in a competition timeslot for one week.

STRATEGIES TO ACHIEVE A GOOD PACE OF PLAY

Strategies to assist players in achieving an acceptable Pace of Play include:

- Check-in at least 10 minutes prior to your tee time.
- Be on the tee 5 minutes prior to your tee time.
- Every player is responsible for the speed of play of their group.
- Always endeavour to keep up with the group in front of you.

- Move quickly between shots and be ready to play when it is your turn.
- If you are behind, abandon the “Honour” system and the furthest from the hole hits first rule and adopt the procedure where, if it can be done safely, the person who is ready hits, even if he is further up the fairway, **providing it is safe to do so**. On the tee, shorter hitters hit first. Longer hitters hit last.
- Play a provisional ball if there is some doubt to where your ball finished.
- Leave buggies on the side of the green nearest the access to the next tee.
- Line up your putt and get set to putt while other players are putting without breach of etiquette.
- Putt out whenever possible (except in matchplay).
- If you “have the honour” on the next tee, hit first and then mark your scorecard.
- Mark your scorecard on the next tee while others are teeing off.
- In other than Stroke competitions, pick up your ball when you cannot score.
- If you lose a ball and or fall behind, play your next few shots as soon as it is safe to do so.
- If asked to ‘catch-up” to the group in front by Club Official a group has 2 holes to achieve their correct position in the field.

Please follow these timing checkpoints during your round:

- (a) complete the first 6 holes in 1 hour 25 minutes
- (b) complete the front 9 holes in 2 hours 10 minutes
- (c) complete the first 15 holes in 3 hours 35 minutes
- (d) complete the 18 holes in 4 hours 20 minutes

Please do not:

- mark score cards on the green.
- take an excessive number of practice swings.
- replay putts.

GUIDELINES FOR THE SUSPENSION/CANCELLATION OF PLAY

INTRODUCTION

Situations will arise from time to time where weather conditions will make the golf course and practice facilities unusable on a temporary basis or for a more extended period of time.

1. The golf course would be considered unusable if:
 - a. The surface of one or more putting greens are covered by sufficient surface water to as to make putting impractical.
 - b. Continuous play on the golf course/practice facilities would cause unacceptable damage to the playing surfaces.
 - c. Electrical storm activity (lightning) in the area is a potential danger to golfers.

SUSPENSION OF PLAY

2. Play will be suspended if one or more of the conditions set out in paragraph 2 above applies but there is every likelihood that:
 - a. Conditions will improve to the extent that the golf course/practice facilities are once again considered playable/usable, or
 - b. The danger posed by electrical storm activity is no longer present.

CANCELLATION OF PLAY

3. Cancellation of play is considered a last resort. Wherever possible play will be suspended until such time as conditions improve sufficiently for play to continue.
4. Where cancellation of play occurs on a competition day, the following will apply:

- a. Provided that at least 50% of those who started their round have completed their round at the time of cancellation, the competition of the day will stand.
- b. Those players who have commenced but not completed their round when play is cancelled will be awarded an NCR (approved) for handicapping purposes. The competition fee will not be refunded.
- c. Those players who have entered the competition but not commenced their round when play is cancelled will be awarded an NCR (approved) for handicapping purposes. On request their Competition Fee may be refunded/credited.

PROCEDURE FOR THE SUSPENSION OR CANCELLATION OF PLAY

5. The decision to suspend play will be taken by the General Manager (in consultation with the Match Committee if readily available).
6. Suspension of play due to the course being unplayable (greens unusable), will be the result of a revised inspection and an assessment of the likely duration of the prevailing conditions.
7. The procedure for dealing with electrical storm activity normally involves a longer lead time and will require:
 - a. Routine monitoring of weather forecasts for the local area to identify any storm activity which could pose a threat to those on the golf course.
 - b. Timely advice to players on the golf course that electrical storm activity is approaching. That advice will be in the form of the warnings issued by the Queensland Bureau of Meteorology and will indicate:
 - Direction of approach of the storm system
 - Estimated time of arrival in the local area (information obtained from weather bureau sources)

Having received that advice the decision as to whether to continue to play or not rests with the individual. It should be noted that a player who fears for their safety may discontinue play at any time and may leave or take cover prior to the Committee's official suspension.

PROCEDURE FOR RESUMPTION OF PLAY

Once the conditions which caused play to be suspended are no longer present and the golf course is considered suitable for play, an announcement to that effect will be made using the public address system and an airhorn will be signal the resumption of play.

AIRHORN SIGNALS

Immediate Suspension of Play due to a dangerous situation:
1 long blast of a the airhorn

Suspension of Play due to the course becoming unplayable:
3 short blasts of the airhorn

Resumption of play: **2 short blasts** of the airhorn

GOLF COMPETITIONS AND HOW THEY ARE PLAYED

These notes are only intended to assist in the general concept of how various competitions are played. They must be read in conjunction with the Rules of Golf and in particular the Committee shall lay down the conditions under which a competition is to be played (Rule 33.)

STROKE (Medal)

The score at each hole is entered on the scorecard, totalled and the player's full handicap deducted. The player who completes the stipulated round in the fewest nett strokes will be the winner.

PAR

In Par play the score is entered on the card in the same way as in stroke play with the exception that where the score exceeds par for the hole, after allowing the handicap stroke (if the player is in receipt of one) the score need not be written in.

It is the custom that when a player is beaten by Par, the ball shall be picked up. This helps speed up play.

After entering the stroke score on the card, the result is marked in the column provided with "+" sign for a win, a "0" for a half and "-" for a loss. At the end of the round the plus and minus signs are added and the nett result written in as so many "up", "down" or "all square".

A player is allowed his full stroke handicap and the strokes are taken at holes as indicted on the card. Where the handicap is more than 18, two strokes will be allowed on the number of holes that the handicap exceeds 18. These strokes will be taken as indicated on the card.

STABLEFORD

This system of scoring by points was introduced by Dr. Stableford of the Liverpool Golf Club in 1931 and has become very popular.

The popular method of playing a Stableford competition is for the player to take strokes at holes in a Par competition using handicap and to score points on the nett result at each hole. At the end of the round all points scored are added up and the player having the highest number of points is the winner.

In scoring, after allowing for handicaps, a player who scores par receives 2 points for 1 over par – 1 point for a birdie or 1 under par – 3 points for an eagle or 2 under par – 4 points, and so on. For example, a player receiving a stroke on par 4 holes scores 4 giving him a nett 3 for this he receives 3 points. A player at a par 3 hole scores a 4 but does not receive a stroke, for this he would receive 1 point.

FOUR BALL v PAR

Two players play as partners each taking strokes at holes as in a par competition. If one of the partners wins a hole and the other halves it only the win counted. If one halves a hole with par and the other loses it only the half is counted and so on. Plus, half and minus signs are added at the end of the round and recorded as an ordinary par competition.

In a four-ball handicap event care must be taken to mark the scores of each player in a separate columns headed by the initials of the player. If the scores are mixed and it is impossible for the Committee to check the card the players will be disqualified.

FOUR BALL STABLEFORD

Played in exactly the same manner as above except that the better ball of the partnership will be credited with points instead of plus, half or minus.

FOURSOMES

Two players play as partners and use one ball. The partners strike off alternately from the tee and thereafter strike the ball alternately during the play at each hole. Scoring is done as for a stroke round and the total is subject to a deduction of half and partners' aggregate handicaps.

NOTE: If either player incurs a penalty stroke it does not alter the rotation of play. In a foursome stroke play competition, which consists of more than one stipulated round the order of play may be changed between rounds unless the committee has laid down as a condition of play that the original order of play must be preserved throughout the competition.

All the foregoing competitions are forms of stroke play and subject to the Rules governing stroke play. Special rules for par and stableford competitions are set out in Rule 32. Rule 31 covers the special rules for four-ball par and stableford competitions. Foursomes may be played under either stroke play rules or match play conditions and Rule 29 is relevant to foursome events.

In addition to the competition listed above many clubs conducts competitions which are not specifically covered in the Rules of Golf.

Some of the more popular types of play are listed below together with suggestions regarding methods of conducting these events.

It cannot be too strongly emphasised however, that since these competitions are not covered by the Rules of Golf, the committee must carefully lay down in advance and publish the condition of play. The State

Association, will not, except in the most exceptional circumstances give a decision on any query submitted, when play is conducted otherwise than in accordance with the rules.

MIXED FOUR BALL v. PAR or STABLEFORD

These games are played as described previously except that lady plays from her own tees, uses her own score card, local rules etc. The result is only transferred to her partner's card when her score for the hole is better than his. Care must be taken when checking the card to refer to the ladies card when dealing with holes halved or won by her.

There are some variations to this depending on the Club. In some instances the lady plays on her full handicap using the ladies card as described above. In other cases, on 7/8 handicap using the ladies card. Again, she may be on full handicap and using the men's card. There are also exceptional instances where ladies play from a $\frac{3}{4}$ handicap and the men's card is used. These last two methods are the least satisfactory.

MIXED FOURSOMES

Mixed foursomes are played in the same manner as foursomes except that the ladies use their own tees and observe their own local rules when it is their turn to play.

The Committee should lay down as a condition of play whether the male or female is required to play from the first tee, and in competitions played under stroke conditions, and consisting of more than one stipulated round, whether this order is to be preserved.

CANADIAN FOURSOMES

Played as above except that both players play tee shots at every hole and afterwards continue with whatever ball they nominate.

AMERICAN FOURSOMES

Both players play tee shots at each hole, then a second stroke with their partner's ball. One ball is then selected and play proceeds as in foursomes with the owner of the ball selected playing the third stroke. Handicap allowance is $\frac{1}{2}$ of aggregated stroke handicap for stroke competitions. This event is sometimes called "Pinehurst Foursomes".

FLAG COMPETITION

The score taken on each hole is entered on a card as in a stroke round. When a player has completed a number of strokes equal to the par of the course (as shown on the score card) plus his stroke handicap, he will have finished the round. The first player to start in the competition will carry the flag (mounted on a stick) and plant it on the spot where his ball lay at the finish of the round. If the ball is in the rough the flag may be planted at the side of the fairway, but not nearer the hole.

If a subsequent player has not finished his round when he reached the flag, he carries it with him, and replants it when he reaches the end of his strokes. The winner is the player who carries the flag the longest distance from the first tee and it normally happens that the final position is somewhere beyond the 18th green, usually on the 1st or 2nd hole. When the competition is played in two or more divisions, two or more flags, clearly marked will be necessary.

ECLECTIC

Competitors play two or more rounds and the eclectic score is the lowest score obtained at each hole on the rounds. Sometimes the competition extends over the whole season and the total score for the holes is subject to deduction of $\frac{3}{4}$ the player's handicap held on the first day of competition.
